

# Incremental documentation

A photograph of a library interior. Tall wooden bookshelves filled with books line the walls. Several warm-toned, Edison-style light bulbs hang from the ceiling, creating a cozy atmosphere. A semi-transparent white banner is overlaid across the middle of the image.

**Why** do we need docs?

**It's a tool**

A photograph of a small, rustic wooden cabin with a dark roof, situated on a snow-covered mountain peak. The cabin is surrounded by snow, and in the background, there are more snow-capped mountains under a clear blue sky. A semi-transparent rectangular box is overlaid on the center of the image, containing the text "Compare them with unit testing".

**Compare them with**  
**unit testing**

# Compilation of unique-knowledge snippets

A close-up photograph of a hand pointing at a map. The map is partially obscured by a semi-transparent white banner with text. The map shows a blue body of water and landmasses with Hindi text labels. The hand is wearing a dark wristband. The text on the map includes 'हल्लनचोक', 'मत्स्य पालन', 'बैदाम', 'ताल बाराही', 'वसुन्धरा', 'पिन्डेल', 'लज', and 'मत्स्यवारी 8'.

**Where** the docs live?

**The closer the better**

📖 README.md

## Cart

This pod is the one in charge to handle the current cart state and it's business logic. The most complex thing about

They express the **intent**

mobile-apps

node 8.5.0 yarn 1.0.1 code style standard es7 coverage 83  
**They are linked**

This code repository main goal is to develop and deploy ulabox mobile apps (both android and ios). The code is written in javascript ES7 with react-native.

## Directory

Hello fellow developer. Welcome to the Ulabox mobile apps project. You might find the following resources useful while you're around here. Bare in mind not all the documentation is placed at `/docs` since we like to have the docs as much close to the code as we can. At `/docs` you'll find generic instructions.

- [Installation](#)
- [Project structure](#)
- [Development](#)

**Docs are not for discussion**

**How** the docs looks like?

# Question yourself how, what and why

Ulabox BO includes a newsletter generator. Deployed under [bo.ulabox.com/newsletters](https://bo.ulabox.com/newsletters). This generator depends upon 3 different main concepts:

- Newsletter controller
- Newsletter blocks
- Render service

## Newsletter controller

Includes the entity, repository and so on. It's the one who resolves the requests. Loads the editor, pick up the email template, defines the possible actions (copy, edit, show, etc) and establishes the model and db relationships.

Find it, as usual, by the name conventions: [Controller/NewsletterController.php](#) , [Entity/NewsletterEntity.php](#) , etc.

**Universally** editable

A photograph of a dead, bleached tree trunk standing on a cracked, dry lake bed. The trunk is dark and gnarled at the base, with several thin, white, bleached branches reaching upwards. The ground is a light blue-grey color, heavily cracked with a network of fine lines. In the background, a range of dark, silhouetted mountains is visible under a pale, hazy sky. A semi-transparent white horizontal band is overlaid across the middle of the image, containing the text "Super DRY".

**Super DRY**

A close-up, shallow depth-of-field photograph of a glowing incandescent lightbulb. The bulb is the central focus, with its filament clearly visible and emitting a warm, yellow light. It hangs from a black cord. In the background, several other lightbulbs are visible but out of focus, creating a bokeh effect. The overall atmosphere is warm and cozy.

**Docs are also for  
troubleshooting**

# Troubleshooting

---

## Connected device is stuck on "@{iphone} is busy: Processing symbol files"

Xcode is downloading the symbols of the device: for the OS and the CPU. Therefore is gonna take a while (20 minutes max). The issue is with the end of process notification, which is not working sometimes. If you feel like is running forever just disconnect the device and restart it. Plug in again and should be working fine. Remove the logs only as a last resource; they're there for a reason.

## ERROR Error watching file for changes: EMFILE

You're missing `watchman`. Watch this [React Native issue](#).

ERROR Unable to resolve module

**Don't rely on humans**

See [this issue](#) and follow the steps described in it.

## Weird error while compiling

When you face Objective-C errors unlikely to be related to any of our dependencies is probably due to a corrupted build. Try removing the existing one a recompile again. Either:

A. `rm -rf ios/build` B. From `xcode` press  for a clean build

**Property 'cacheKey' not found on object of type 'LOTComposition'**

If you try to build and failed with this little error try the following commands:

ERROR! Xcode is resorcing module  
**neither on synchronisation**

See [this issue](#) and follow the steps described in it.

## Weird error while compiling

When you face Objective-C errors unlikely to be related to any of our dependencies is probably due to a corrupted build. Try removing the existing one a recompile again. Either:

A. `rm -rf ios/build` B. From `xcode` press  for a clean build

**Property 'cacheKey' not found on object of type 'LOTComposition'**

If you try to build and failed with this lottic error try the following commands:

A close-up photograph of a person's hand holding a fan of playing cards. The cards are fanned out from the bottom left towards the top right. The back of the cards features a repeating geometric pattern in red and blue. The hand is positioned at the bottom, with fingers slightly curled to hold the cards. The background is a solid, muted blue-grey color.

# Tips & tricks

A photograph of a desk with a laptop, a pair of glasses, and a potted plant. A wisp of smoke is rising from the laptop, and a semi-transparent grey banner is overlaid across the middle of the image.

**Code** smell

A close-up photograph of a brass key with a white tag numbered '12' attached to it. The key is resting on a blurred background of a city street at night, with lights and buildings visible in the distance. The text 'Don't over prioritise' is overlaid on the image in a bold, sans-serif font. The word 'Don't' is in black, and 'over prioritise' is in red.

**Don't over prioritise**

The image shows a two-lane asphalt road winding through a dense forest of tall evergreen trees. The road is wet, reflecting the overcast sky. A thick layer of mist or fog hangs in the air, obscuring the distant trees and creating a sense of depth and mystery. A semi-transparent horizontal band is superimposed across the middle of the image, containing the text 'How do I start?'.

**How do I start?**

# /thanks
